Creating adaptive learning spaces that meet the needs of every learner

Design an interface for ordering food on an airplane

Goals:

- Allocate flight attendant's capacity
- Offer menu to customer faster
- Highlight previous food orders

Constraints:

- Seating next to him from window
- Big menu? Short or small

User:

- Age: 18-45
- Typically regular means
- Frequent flyers
- Usually travel alone
- Subscription or activation option

Flow:

```
graph LR
    A[User has 10min time from arrival] --> B[User browses food options]
    B --> C[User adds food items to cart]
    C --> D[User pays with card]
```

Our Vision

Creating Spaces.
Transforming Lives.

We are the leading supplier of tailor-fit furniture solutions for learning environments. For over 38 years, schools have trusted us to help them innovate and grow by creating high-performing and engaging learning spaces that empower students to learn and school staff to excel in a place they love to be. We leverage our deep industry knowledge to guide customers through the complexities of creating, sourcing, and delivering dynamic and welcoming spaces with comfortable furniture that is built to last. Our open and collaborative approach ensures we stay one step ahead of our customers' needs, generating innovative and functional spaces that transform lives.

Message from the President

We are pleased to announce the merger of CDI Spaces Inc, Trade West, Accent Environments, and Jonathan Morgan & Company! Together, we are excited to deliver a world-class customer experience for our clients.

We believe that a well-designed learning environment is pivotal to nurturing the minds of future generations. Our commitment to helping schools create welcoming spaces that support adaptive learning is reflected in our extensive range of dynamic and practical furniture. We understand the evolving nature of education, and our curated collections will help empower both educators and students, fostering creativity and collaboration.

We are thrilled to introduce the new 2025 School Furniture Catalogue, a testament to our unwavering commitment to helping you transform your educational spaces into dynamic, adaptive, and collaborative environments.

This year's catalogue features a wide selection of versatile furniture options to meet the complete needs of your school. From classrooms that inspire engagement and curiosity, to administrative areas that promote efficiency and collaboration, and outdoor environments that encourage exploration, we have curated a comprehensive collection for every learning space.

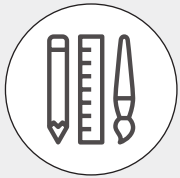

One of our cornerstones is a strong dedication to customer service. We recognize that each educational institution is unique, with distinct needs and aspirations. Our team is committed to providing fast, detailed, and personalized service to ensure your vision becomes a reality. We have a proven track record, partnering over the years with countless educational institutions. By choosing us, you are not just investing in furniture; you are investing in a legacy of quality, innovation, and a passion for education.

We can't wait to hear from you.

Kelvin Devenish
President

Our Services

We deliver a world-class experience that inspires people to work and learn. You can expect fast and proactive communication and our 'make it right' guarantee, so you can buy with confidence.

EXPERIENCE

Our team is committed to creating an extraordinary experience for you every step of the way. Our consultants will guide you through the process, taking the time to understand your needs and maintaining proactive communication to ensure your satisfaction.

EXPERTISE

Our team of experts has over 38 years of experience in creating engaging and welcoming learning spaces that enable students to reach their full potential.

EXECUTION

We deliver tailor-fit furniture solutions with skilled project execution to create customized spaces that exceed our customers' highest standards.

"From the start, the presentations showcased flexible learning approaches, adaptable seating options, innovative classroom designs and strategies for maximizing our learning space."

Adaptive Learning Spaces

Encouraging movement for healthy habits

People are programmed to move. A young developing brain needs various types of motion to develop important foundational skills. A student-centred classroom allows for healthy movement, providing safe and accessible motion opportunities that help everyone feel organized, alert, fit, and ready to learn. Children who have access to healthy movement in the classroom are more likely to stay engaged and have better attention and behaviours.

Flexible and balanced spaces

Today's students are digital learners, constantly moving between different applications. Students need spaces for learning that allow them to easily transition between sharing their thoughts, independent study and the opportunity to collaborate with others.

Dynamic spaces for growth-minded teachers

Teachers are an active part of the learning process, moving through the classroom to facilitate, guide, and encourage students in their pursuit of self-discovery and knowledge. Students thrive in dynamic, personalized learning environments that are designed for technology and activity integrations.

Helping Students Thrive

Traditional Classrooms vs Adaptive Learning Spaces

Traditional

- One size fits all. Students do not have control over their learning style.
- Poorly prepared for collaboration and group assignments.
- Rows of stationary individual desks are difficult to move and discourage collaboration and movement.

Adaptive

- Allows students to choose the learning approach that suits them.
- Emphasizes collaboration, communication, movement, and creativity.
- Encourages different teaching methods and frequent interactions between students and teachers.

2025 Classroom Trends

Let our furniture options inspire you as you design dynamic, innovative and adaptable learning spaces.

Collaborative Learning Environments

Classroom design can foster collaborative learning. Dynamic spaces with modular furniture will support a variety of learning styles to create truly adaptive spaces. Furniture will be flexible, promoting autonomy and teamwork. Intelligent design solutions address noise concerns, minimize distractions and create designated quiet zones, enhancing communication and connection among students.

Sustainable and Green Classrooms

Sustainability is going beyond a mere nod to becoming a central focus. Non-toxic building materials and biophilic design principles will be emphasized to promote a connection between students and nature. Features like 'green walls,' increased plant presence, and layouts maximizing natural light contribute to better learning outcomes.

The Agile Classroom

Educators are embracing agile classroom designs in 2025. Lightweight, movable furniture allows distraction-free transitions between teaching styles, accommodating whole-class discussions and group activities.

Personalization and Accessibility

Inclusive design is transforming classrooms to accommodate diverse learning styles. Multisensory design elements activate auditory, visual, and kinesthetic learning, while technology integration enhances accessible learning. Schools are incorporating adjustable desks and chairs to create learning experiences that improve outcomes.

Safety and Well-Being

Health-focused classroom design is a top priority, prioritizing both physical and mental health. Prioritize easy-to-clean surfaces and WELL Building Standards. Colour palettes can foster emotional safety, recognizing the impact of colour on mood and focus. Environments dedicated to socializing, studying, and relaxation contribute to improved safety and well-being, creating inspiring and warm spaces for students that feel like home. In this era of dynamic, learning-focused design, collaboration, accessibility, sustainability, agility, and safety ensure thriving environments for students and teachers alike.

Learning Environments at Drayton Valley Christian School

In the small river town of Drayton Valley, Alberta, where the North Saskatchewan River winds through the landscape, a transformative educational initiative is underway.

A School Re-Imagined

The Wild Rose School Division (WRSD) announced a bold plan to relocate Drayton Valley Christian School and HW Pickup School to the newly constructed Powerhouse Campus, marking a significant milestone for the growing educational community in Drayton Valley, Alberta.

The relocation provided the perfect opportunity to rethink the school's learning spaces and create an environment that supports modern education while reinforcing the school's core values of faith, community, and academic excellence.

The shared campus would unite students at different stages of their academic journey, fostering a dynamic learning environment centered on flexibility and collaboration. For Drayton Valley Christian School and HW Pickup School, the transition was more than just a change of address—it was a chance to reimagine learning spaces to support diverse learning styles and accommodate future growth.

Learning Flexibility by Design

The vision for Powerhouse Campus centered around creating a flexible learning environment that could adapt to the diverse needs of its students. "When we approached the furniture design, we aimed to keep it as flexible and open as possible to support different learning styles," explained Jen Lefebvre, Director of Instruction for WRSD.

With students ranging from pre-kindergarten to Grade 8, Lefebvre and the school administration teams needed to design spaces that would cater to both early learners and middle schoolers while maintaining a cohesive yet versatile learning environment. "We had to view students as individuals, designing spaces that worked for both the little ones and the big ones," she emphasized.

The scale of the Powerhouse Campus project made it the largest endeavor WRSD had ever undertaken, serving more than 675 students across two schools. This required careful coordination between teams of principals and educational staff to ensure that the new building would meet the functional and instructional needs of its students. The goal was not only to create a modern, aesthetically appealing space but to ensure it provided the flexibility to support various teaching styles and student preferences.

Having successfully partnered with us on four previous school builds, WRSD knew they had the right collaborator for this complex project. Our expertise in educational design guided WRSD through the planning process, ensuring that the new spaces would evolve alongside the students' needs, fostering both individual and collaborative learning experiences.

Students spend more time in the classroom than anywhere else in school. Our customizable furniture options help you build adaptive learning spaces that meet the needs of every learner, fostering communication, collaboration, and growth.

CLASSROOM FURNITURE

"We've been a customer for over twenty years and have always appreciated their outstanding customer service and excellent products."

Chairs

Plastic Chair Colour Options

Chair Frame Colour Options

*Chrome is standard unless specified

HOW TO SELECT THE RIGHT SIZE CHAIR FOR YOUR CLASSROOM

- 1 Measure your existing chairs**
 Place your existing school chair on a flat surface. Find the tallest point on the seat (not the backrest) and measure from the floor to the highest point.
- 2 When in doubt, choose larger chairs**
 You can always fit a student into a larger chair, but you should never seat a student in a chair too small for them. School chairs that are too small can lead to antsy, fidgeting, uncomfortable students who are more likely to be disruptive. A larger chair will be more comfortable and fit the student better as they continue to grow.

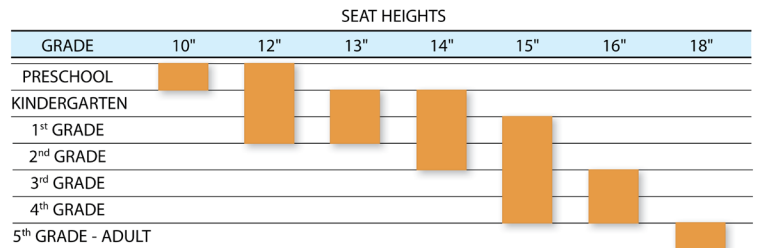

N2 Series Chair

N2 represents a new generation of classroom seating, featuring affordability, comfort, and durability.

- 12" Model N212
- 14" Model N214
- 16" Model N216
- 18" Model N218

SUGGESTED SIZE SELECTOR

SUGGESTIONS ARE FOR STUDENTS OF AVERAGE HEIGHT AND WEIGHT.

Seat heights should be measured by calculating the distance from the floor to the top of the front curve of the seat. Measurements should not be taken at the seat's side or rear. If at all possible, measure the heights of a representative sample of students in each grade prior to each school year. This will help you more accurately determine your specific seating needs as time goes by.

When space is at a premium, our stackable chairs can be quickly stored away to make room for other classroom activities.

Analogy Series Chair

Analogy's striking upright design features ergonomic support and durability paired with exceptional value.

12" Model AN12 / 14" Model AN14

Learning Through Action

Self-Regulation Classroom Cruiser

The Self-Regulation Classroom Cruiser is designed to provide opportunities for students, grades K-6, to self-regulate through movement without having to leave or disrupt the class. It is ideal for inclusive environments and helps kinesthetic learners and any student who needs to get the wiggles out so they can refocus and engage in learning. In just a ten-minute ride, students can become more engaged and ready to learn.

- Designed for riding comfort and safety for students
- Durable build and exceeds commercial standards (with over 7 million testing cycles)
- Quiet drivetrain to minimize distraction
- Fully adjustable for the safest ergonomics
- Low maintenance

Classroom Benefits of Standing Desks

Exercise improves memory and focus.
Students learn better when they have
the freedom of movement and furniture
that adapts to their needs.

ENHANCED HEALTH

Standing desks can increase calorie burn by 17-35% and decrease BMI percentile by 5%. Achieving and maintaining a healthier weight is linked to increased confidence and self-esteem, which is directly tied to attendance rates.

INCREASED ENGAGEMENT

Standing desks lead to better focus and attention in class. Students have more eye contact with teachers and 7-9 more minutes of engagement per hour – an increase of up to 15%.

REDUCED DISRUPTIONS

Both research and teachers suggest that classrooms that offer students more flexibility to move have reduced incidents of behavioral disturbances, fewer distractions, and improved collaboration.

IMPROVED ACADEMICS

Moving more and sitting less in class can lead to 3-5% improvement on test scores.

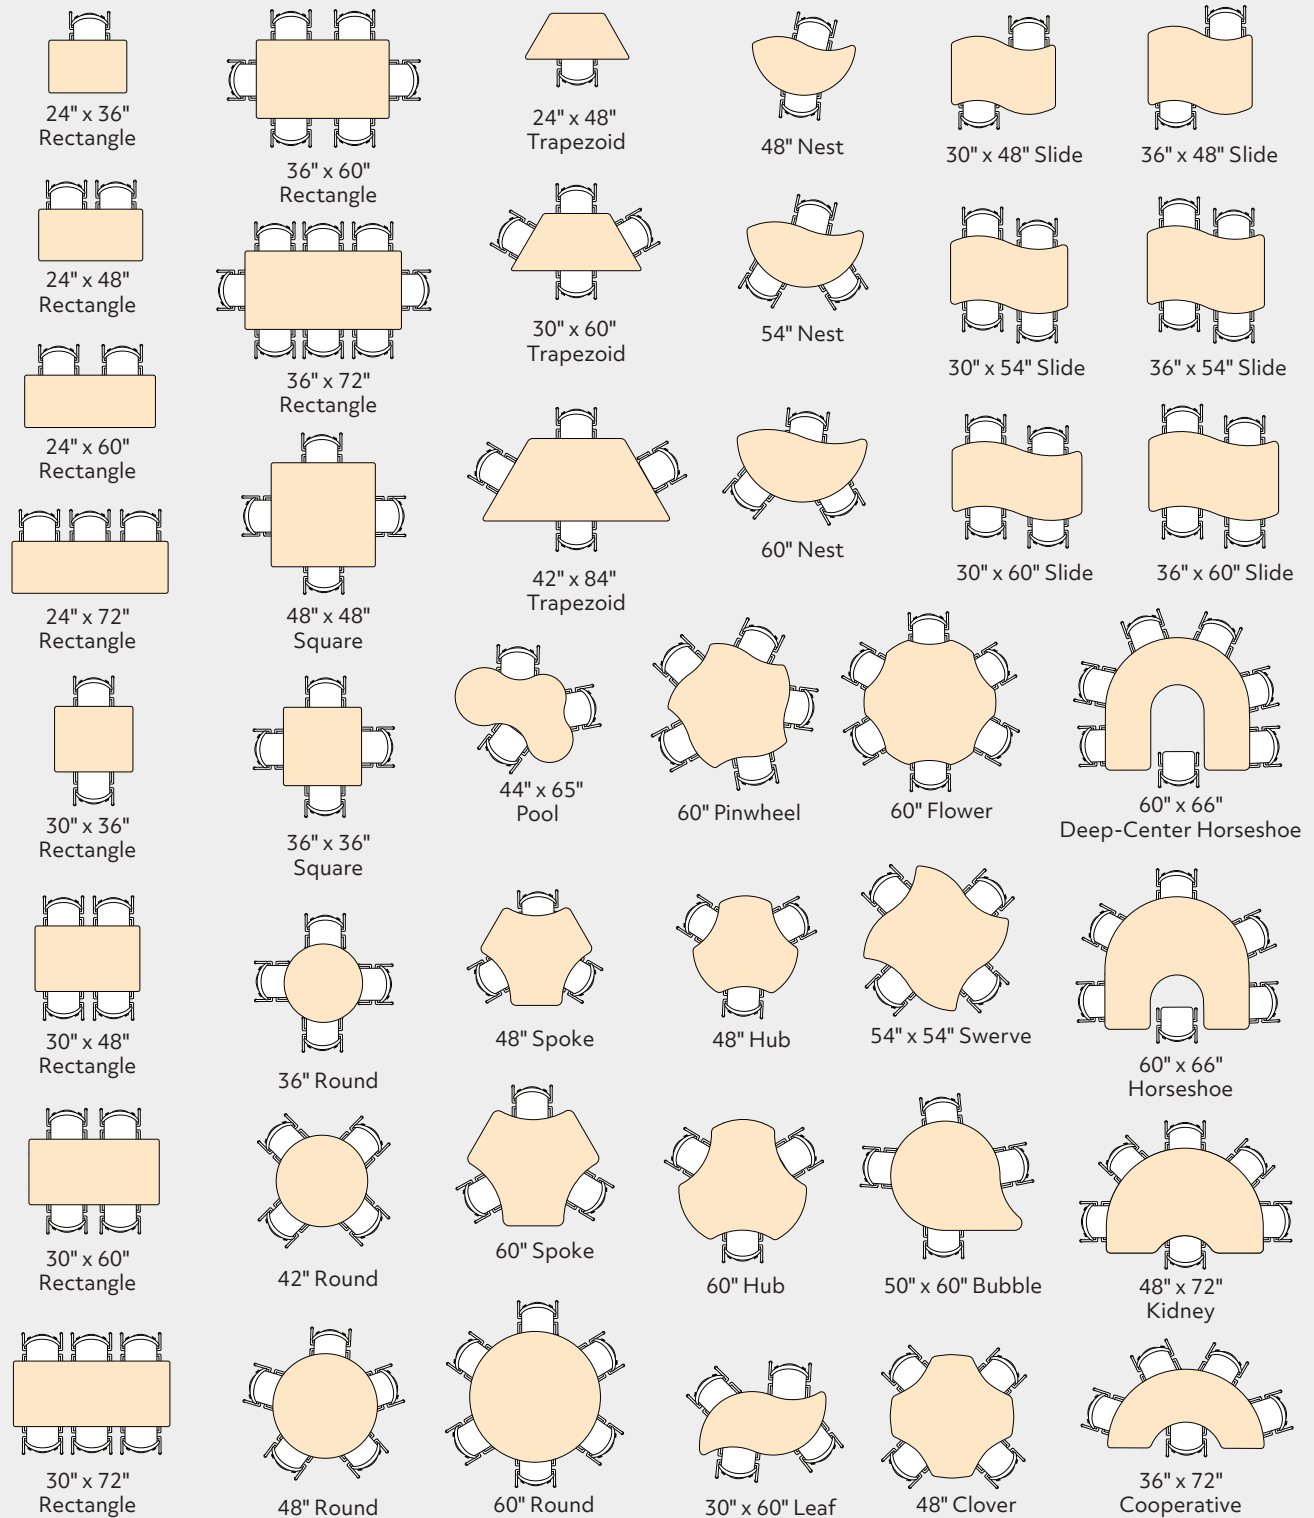

Activity Tables

Easily configured and able to accommodate students of every age, activity tables are ideal for the dynamic atmosphere of the 21st century classroom. These activity tables support every stage and style of learning - from independent study to collaborative group work and creative hands-on projects. The

nesting shapes can be easily grouped into pods or split apart for different uses, and a selection of height-adjustable legs can handle the smallest preschooler to the tallest student. Activity tables are the perfect choice for versatile, modern educational environments.

Tables with a Twist

The tabletop is where collaboration begins. With distinct shapes and a multitude of sizes, activity tables form a solid foundation for classroom, café, workroom, or seminar activities. Choose from an array of tables that can be organized into groups, split into separate areas, set at different heights, or a combination of all three. Any top can also come as a whiteboard.

Legs that stand out - and stand up

Easily coordinate activity tables with your classroom aesthetics with thin or thick profile legs. Choose the classic look of a thin profile leg, or make a bold statement with the thick profile leg. We offer a number of models with stand-up height legs and each series can be configured with fixed or adjustable legs to accommodate your ideal set-up. Tables can now be converted to a floor table with our Adjustable Floor Table Conversion Kits.

Convenient mobile tables with built-in seating are a flexible and practical option for any space. Heavy-duty locking wheel assemblies ensure mobility and ease of storage.

MTS Series Mobile Stool Table

Classic mobile tables with built-in seating are convenient and flexible. Specially designed torsion bars make these tables easy to fold and unfold. Up-lock and down-lock mechanisms combined with heavy-duty wheel assemblies facilitate simple setup and tear-down.

MTB Series Mobile Bench Table

These practical and convenient tables are designed with an "EasyLift" Torsion Bar System, so one person can easily lift and fold them for quick storage. Storage latch release handles on both sides unlock, and the self-leveling automatic down-lock ensures the table is fully opened. Curved frame design and generous spacing prevents tripping and allows for easy entry, exit, and cleaning.

60" Round Mobile Table With Benches

Mobile fixed bench units are the perfect solution when more seating is needed. Built on a solid 14-gauge steel frame with tamper-free hardware, tabletops and benches are protected with a high pressure laminate top and a phenolic backer sheet making them easy to clean.

72" Convertible Bench Table

Convertible bench units are sturdy and versatile. Built on a solid 14-gauge steel frame, tabletops and benches are protected with a high pressure laminate top and a phenolic backer sheet making them easy to clean.

Our Flip-Top Technology tables feature a 6" deep locking flip-top compartment that secures cables, surge protectors, and wires beneath the work surface for a clutter-free learning and work environment.

30"x48" | 30"x60" | 30"x72"

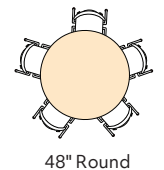

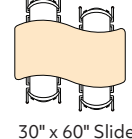

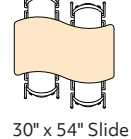

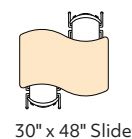

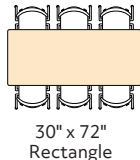

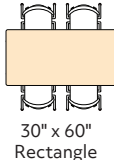

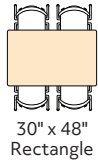

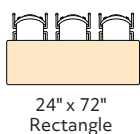

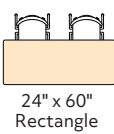

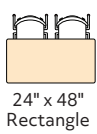

Flip-top tables provide an elegant solution for multi-purpose environments that require flexible layouts and foster collaboration. With a simple adjustment, these nesting tables can be stored in tight closets, making them an ideal addition to the space-conscious office.

Uni Flip Table

The innovative Uni Flip table supports modern work dynamics as a superb choice for conference, training, meeting, and catering facilities, as well as quickly meeting the demand for extra working space for projects.

30" Uni-Flip Fixed Height

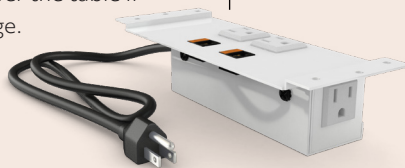

**Uni Flip Height Adjustable
 Fliptop Table**

Height adjustment feature now makes flip-top tables accessible to a wider variety of students. Simply set the frame to the proper height you need. Easily raise or lower the table if the facility needs change.

Frame Heights:
 20" to 25"
 24" to 33"
 34" to 42"

Optional Power Box

Genius Training Table

For training conferences, meetings, and brainstorming sessions, Genius can be reconfigured on the spot! Thanks to an ingenious interlocking design, these training tables can be stored in a minimum of space

**Modulus Flip Table
 Whiteboard**

Modulus flip tables can be used in any combination, which creates endless opportunities for constructive interaction in classrooms, training rooms, and meeting rooms. All flip tables come with durable locking castors to ensure they are easy to reconfigure into new layouts.

Early Learning Products

Classroom Furniture

Accent your classroom with our collection of versatile and durable products that encourage creativity and support early learning in a welcoming and organized space.

LOFT Collection

The Loft structure for early years spaces creates a playful and engaging environment that encourages exploration, creativity, and imaginative play development.

Mobile Garden Centre

Ideal for STEM in Early Learning! Our mobile garden center brings nature into the classroom and engages children in hands-on learning about how plants grow when they plant seeds, water the soil and follow the evolution of plant life.

Confetti™ Cushions

These cushions offer young learners a place to learn, discuss, and reflect.

Reading Tree | 94.5"H

The reading tree is the perfect focal point for any room, naturally drawing in young readers under its cover. Build a warm and inviting space that introduces a sense of wonder and nature with this instant favourite.

Dress-Up

Keep costumes organized and handy with this mobile unit. Designed to hold costumes, hats, and many other pretend play accessories for even the most imaginative children!

Classroom Furniture

Nature View Round Edge Live Table

Bring the outdoors inside with this rustic, playful and natural table that students will flock to. Constructed from durable birch plywood.

Nature View Window Seat

Give your students a cozy window seat to take a break, dive into their favourite book or simply find a peaceful moment of comfort. Includes a soft green cushion and spacious storage compartment.

QuietTime Preschool Cots

Promote peaceful rest for young learners with the QuietTime Preschool Cots. These versatile cots are built to withstand the demands of a preschool or childcare setting.

Nature View Play House Cube

Nature View Small Log Bench

Imagination Truck

Imaginative play takes a new turn! Whether it's a food truck, mail delivery van, ice cream truck or other service vehicle, our Imagination Truck will be the focal point of your imaginative play area.

Kitchen Island

A trendy update to the play kitchen! Refined contrasting white and textured white oak panels form crisp, clean lines that give a pleasing modern vibe to our play kitchen island, destined to become the centerpiece of a dramatic play area for young children.

Sky View Sanctuary

The graceful curved openings invite children inside the cozy interior where the brilliant day and night skies create a calm, comforting personal space to relax, read, reflect or recharge away from the bustle of a busy classroom.

Crawl Thru Cabinet

Encourage early mobility and exploration! Babies and young toddlers will enjoy crawling through the two large openings to explore their reflection.

Mud Kitchen

Whether they are whipping up a mud pie or serving up something special at their very own mud café, kids will love the EverPlay™ Mud Kitchen.

KYDZ Queen Castle

Kids can have plenty of fun playing in the KYDZ Queen Castle. Four interlocking walls easily assemble for a sturdy reading or dramatic play center.

Meets ECER-R, Space for Privacy standards.

Storage Solutions

Classroom Furniture

We understand that space is often at a premium, and an organized space can help students and teachers stay focused. Our selection of adaptable storage options can help you transform any space from cluttered to composed.

CAREER FAIR 3:30
IN THE GYM

Our furniture will help you create a structured yet welcoming environment for your school office and meeting rooms. Customize your choices to create the perfect space, whether it's focused on organization, reception, privacy, or professional meetings.

ADMIN FURNITURE

"Our new furniture is fantastic! The team was kind, professional, and incredibly knowledgeable throughout the process."

Admin Furniture

Classic or contemporary, our versatile collections feature a range of customizable options to create an organized space.

Make the right first impression with our customizable reception furniture that will help you create a welcoming atmosphere while maintaining discretion and privacy.

Takeoff Reception

A traditional reception series comprised of full modesty desks, transaction tops, and a variety of storage options including pedestals, lateral files, and hutches. Customize to fit your needs with a free design consultation with your account executive.

Noki

A simple and efficient security system. The Noki (no key) electronic lock allows you to create a personal code of 1 to 8 digits, for more than 9000 possible combinations. Forgotten code? Use the master key for immediate access. With Noki, security is as easy as 1-2-3!

RZ3 Series

The RZ3 series stands out with its transaction shelves supported by aluminum posts. Acrylic, laminate, and metal accents, with or without embossing or accessory bars, can be integrated into the reception workstation. The RZ3 series can include height-adjustable tables providing an ergonomic solution for every user.

Arrive

The ARRIVE collection offers a modern aesthetic without sacrificing functionality. Its clean lines alongside generous workspace combined with privacy enhances employee comfort and productivity. ARRIVE's unique layered floating appearance will make a lasting impression in any space.

Conference Chairs

Admin Furniture

Balance Training Chair

The comfort of the Balance Training Chair offers high-quality functionality and a touch of sleekness to your meeting spaces.

Wit Side Chair

Lightweight and mobile, this low profile chair makes the perfect addition for high traffic areas like conference rooms.

Movi Nesting Chair

The flexible and supportive Movi Nesting Chair provides a comfortable seating option that can be easily stored away to maximize space.

Seek Chair

This durable and versatile chair is perfect for any conference room. Its small storage footprint means it can be easily tucked away when not in use.

Conference Layouts

Foster collaboration and productivity in your meeting rooms with our comfortable seating and table options that can maximize any space.

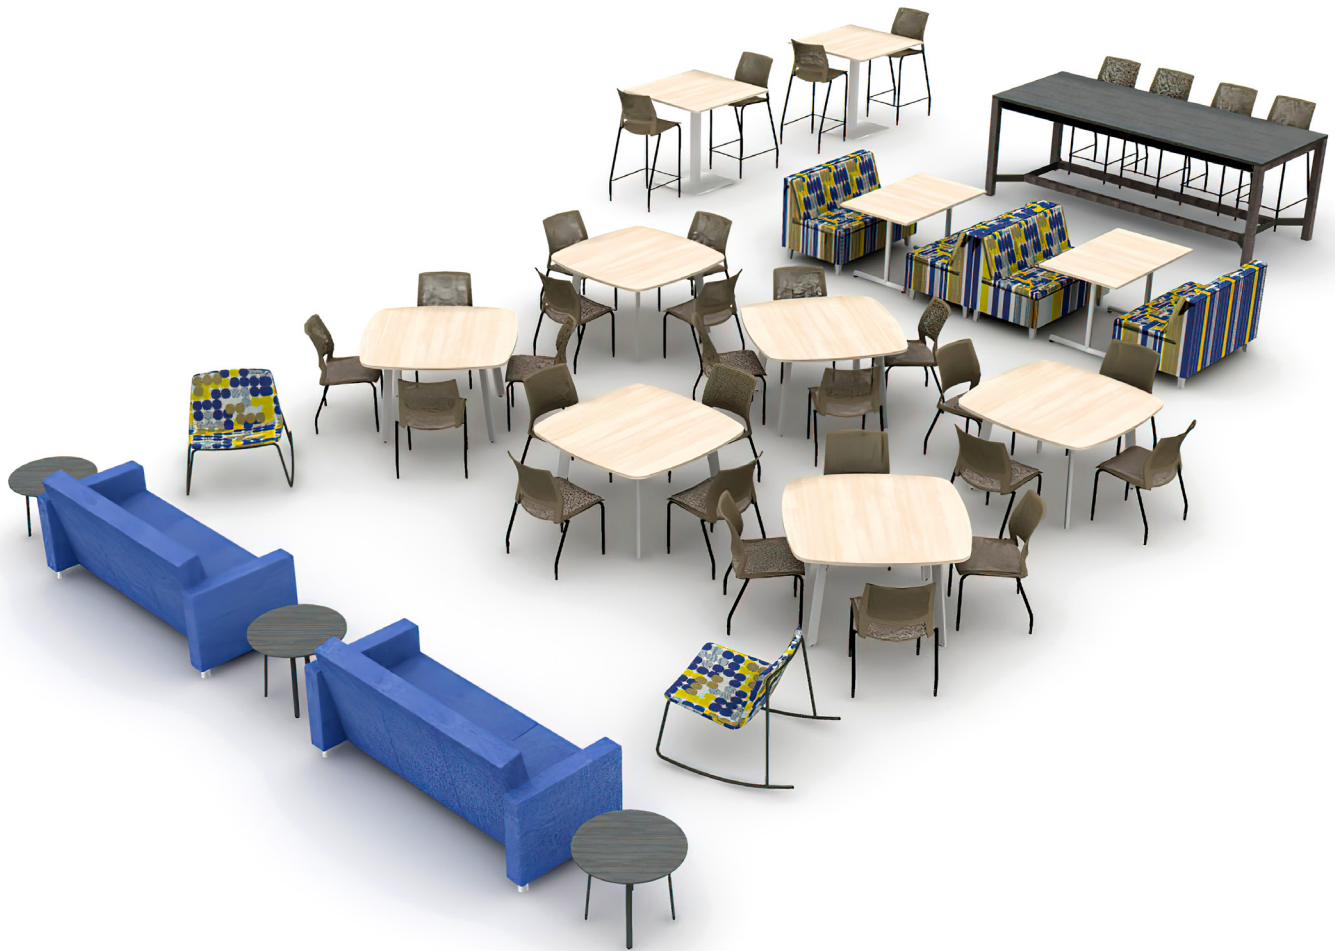

Admin Furniture

Give staff a place to connect, collaborate and take a break with our staff room furniture options. Create the ultimate “cafe ambiance” by incorporating a variety of table heights and seating options.

Side Chairs

Introduce a touch of style in any space. Our chairs complement any setting and offer all-day comfort at an attainable price.

Focus Side Chair

Focus side chair with mesh back and upholstered fabric seat. Available without arms or with adjustable arms.

Ignition Multi-Purpose Stacking Chair

TANGRAM

Available in a variety of shapes and configurations, students will be drawn to this collection of soft seating.

Outdoor Spaces

Take the learning outdoors with our selection of engaging outdoor furniture options that enhance the natural beauty of the outdoors and help students connect to their environment.

Outdoor Planter Bench Set

Build a welcoming outdoor seating area with this bench and planter combination that has space for growing anything from flowers to veggies.

Outdoor Bench and Table

Share snacks, complete classwork, or simply connect with nature at this comfortable and durable bench and table.

Stakki Chair

Lightweight, comfortable, and oh-so-stackable, the Stakki is the perfect seating option for every outdoor (or indoor) learning moment.

Common Spaces

Ryno Rocker

This gentle rocker provides comfort and calm outdoors. Its hygienic surface allows for easy cleaning, and is made from water resistant, UV stabilized material.

Ryno Stool

The weather-proof comfort and soft lines of this eye-catching stool make it a natural addition for your outdoor spaces.

Ryno Bench

Weightened and capable of being fastened to the floor, this vibrant bench is a safe and durable option for any outdoor space or playground.

Weather Resistant Series

Bring the comfort of the classroom outdoors with this weather resistant line of soft, durable and lightweight seating. Available in a variety of shapes and colours, and made from UV and fade resistant vinyl.

Waste Receptacles

Waste Receptacles

Reduce, reuse, recycle. Our selection of waste receptacles help students keep their school environment clean while encouraging recycling.

Today's modern schools offer a multitude of spaces to encourage student learning, creativity and collaboration. Our expert teams can help you build the right room for any learning group, from young scholars to advanced knowledge seekers.

SPECIALTY ROOMS

"Excellent customer service, efficient and friendly install team, and top-quality products!"

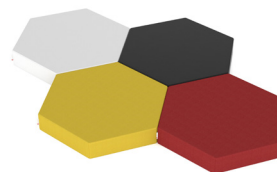

Mya Wēl

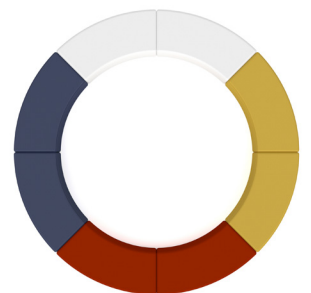

This set of eight versatile ottomans come together to form a larger circle, creating a central and comfortable meeting space for students to gather in knowledge seeking and collaboration.

| EN-OFC-FN-4 Floor Cushion Set

Medicine Wheel Tables

The Medicine Wheel tables allow you to make Indigenous culture and knowledge traditions the focus of any space. Each table encourages students to gather in their pursuit of knowledge while providing a space to foster collaboration, understanding, and growth.

Spirit of Truth™ Rug

This colourful rug features a medicine wheel and dreamcatcher at its centre, encircled by the Seven Teachings, facilitating discussions about Indigenous culture and encouraging harmony with nature and all living things.

Wheel of Life™ Rug

This rug makes the medicine wheel a focal point of any room, to represent the interconnectedness of the physical, emotional, mental and spiritual realities.

The Circle Rug

This rug introduces students to Indigenous cultures. Each symbol not only provides a sitting space for students but also an opportunity to learn about Indigenous life. Available in round or oval shapes.

Create your ultimate science lab with tiered science chemsurf tables and stools at 29"H, 36"H, and 41"H with a demo table and teacher desk. To match the height of your built-in millwork, insert 36"H counter height table with stools for a consistent look within your science lab.

Chemsurf Science Tables

Medium-density fiberboard core surfaced with an acid and chemical resistant Chemsurf high-pressure laminate.

Crafts, construction, tinkering and exploring. Let imaginations run wild while the makerspace tables and stools support all big ideas. Get messy, hammer out the details, and deliver innovation. Durability and reconfigurability is the makerspace table's middle name. This is your space to build. Organize. Inspire. Grow. Do.

The Creation Cube

This versatile work space comes with four top shapes to choose from and has backpack hooks and shelves for easy storage.

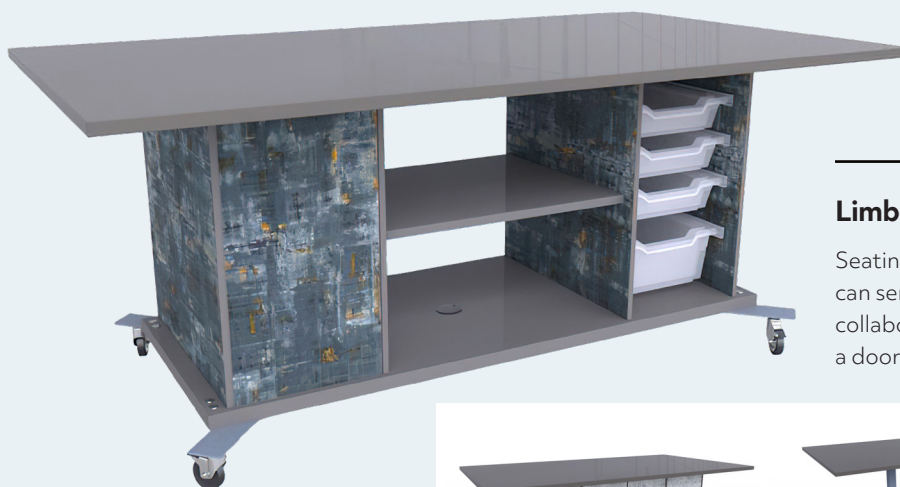

Mobile ED Station with Soft Seating

This heavy duty workstation can stand up to any high impact learning spaces like wood shops and robotics labs. Convenient storage and soft seating modules.

Rover Table

The makerspace movement is becoming a powerful part of many school district curriculums. Schools are repurposing classrooms, renovating computer labs, and retooling media centres to accommodate the tools required for these creative spaces. But for schools that do not have the extra space to give up, the Rover Table is the perfect solution. Engineered to be easily transported across the hall or across the district, the Rover is the ideal solution for a shared maker curriculum.

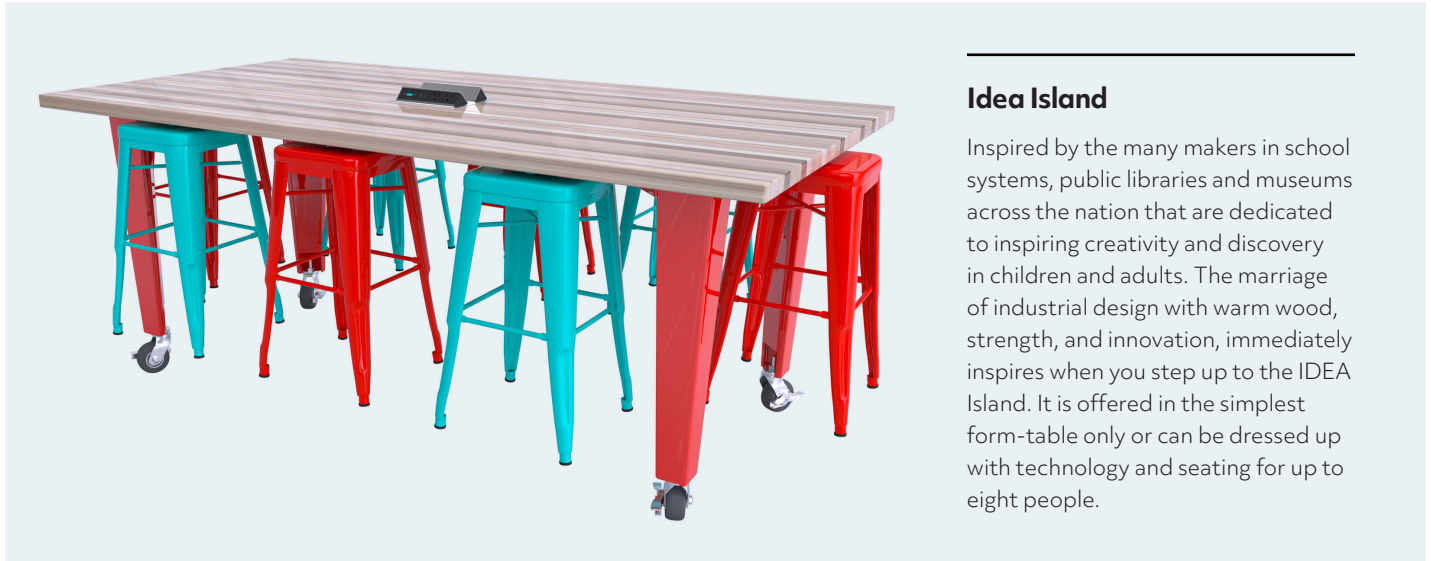

Limber

Seating up to six students, this versatile piece can serve any educational purpose, encourages collaboration and is mobile enough to slide through a doorway.

Specialty Rooms

Idea Island

Inspired by the many makers in school systems, public libraries and museums across the nation that are dedicated to inspiring creativity and discovery in children and adults. The marriage of industrial design with warm wood, strength, and innovation, immediately inspires when you step up to the IDEA Island. It is offered in the simplest form-table only or can be dressed up with technology and seating for up to eight people.

Ed Table

The Ed Table truly embodies the inventor's spirit—providing the most complete maker experience available. Maximizing creative time while minimizing the amount of logistical preparation work and cleanup was the driving factor behind the design concept. For schools and teachers interested in project-based learning, the Ed Table is a natural extension and fundamental element for engaging learners.

Robotics Bumper Kit

Can quickly be added to any new or existing IDEA Island, ED Table or select Brainstorm Workbenches to create a safe barrier from your robots making their way to the floor.

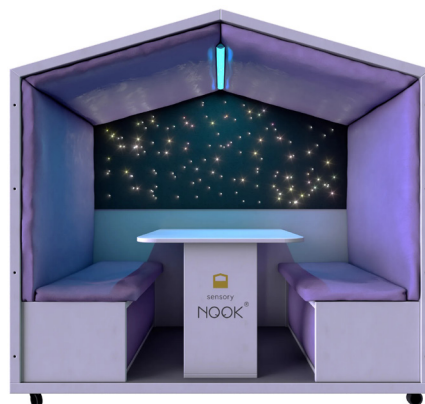

Makerspace Table

Specifically designed for hands-on learning environments, the Makerspace series offers a wide assortment of medium-duty tables, all with a swap out work surface. Surface options include a standard 3/4" laminate plywood core, or an unfinished, non-laminate, raw plywood work surface.

Sensory rooms are designed to be a calm place to help those with sensory sensitivities. Support students in learning to regulate their brain's reaction to external stimuli by developing coping strategies and improving focus.

These rooms include lights, colours, sounds, sensory soft play, aromas, tactile surfaces, swings, and/or rockers. The flexibility of the room allows a student to reconfigure the space depending on their needs (movement, compression, smells). It is meant as a peaceful multi-purpose room for a student who is dysregulated.

Sensory Nook

Give students a place to escape, regulate and experience a sense of wonder with the Sensory Nook.

Waterless Rainbow Tube

This colourful addition to any sensory room features multiple light effects and three sound responsive functions.

GrassyOtt Collection

Introduce a sense of nature with this collection of benches and domes sure to draw in any student needing a moment of peace.

Tactiles

This collection of six different sensory tiles are the perfect addition to any sensory space, whether they're in reach or mounted. The variety of textures give students a sense of calm and help them focus, listen, and regroup.

Greenspace Rug

This comfortable and versatile artificial grass rug makes the perfect focal point. Available in a variety of shapes to fit any space.

Giddy Chair

The unique and engaging Giddy Chair introduces movement to your learning environment and encourages visual and auditory processing.

Confetti™ Floor Lounger

Celebrate Learning in Comfort.

eSports Room

Boost student engagement and creativity with a dedicated space for Esports. Encourage teamwork, sportsmanship, and digital learning with a tailor-made room offering comfort and durability.

Broadcast Station

Step into the future of esports broadcasting with the Esports Shoutcasting Station. Designed to elevate your gaming experience.

Soft Rocker

Put the fun in functional with this eye-catching chair that adds the perfect sense of comfort and soothing movement to any space.

Chill Beanbag

The CHILL beanbag series brings comfort into the school day and provides a cozy, relaxed atmosphere.

Levi Gaming Chair

Durable, comfortable, and functional, Levi Esports Chair is engineered for high performance during your long gaming sessions.

Rock

This modern hybrid lounge seat offers the motion of a rocking chair and the deep comfort of a bean bag chair.

Music Room

Melody Music Stand

The Melody Music Stand will keep sheet music or lecture notes displayed at the height of your choice. The durable 22-gauge aluminum surface is a spacious 20 1/2" wide and features safe rolled edges to prevent harm to instruments or people. A black textured finish resists chips and scratches so your music stand looks good as new, year after year.

Melody Stacking Chair

Features a 7/8" frame with 16-gauge square tubing. 14-gauge rear seat brace with band-pitch style with a seat back angle of 97 degrees. Durable polypropylene contoured seat for extra comfort. Can be stacked 18 high on our DY-82 with four stack bumpers to protect finish. Weighs 12 lbs. Non-marring polyethylene glides.

Stage Set

Constructed with 3/4" solid plywood core. Available with carpet in choice of four colors or 1/8" thick tempered hardboard, 16-gauge, 1-13/16" high formed steel channel frame reinforced with 16-gauge steel angle welded to the inside of the channel. 14-gauge steel tubing capped at the point of floor contact with high impact plastic glides. Legs open and close using only one hand. Stages and risers equipped with drop-in couplings that allow units of same or different heights to be joined together.

Platforms For Theatre Use

Seated, standing, platform — flipFORMS flip into whatever shape you need, and they go wherever you need them. The pocket-molded hand grips, easy-moving recessed wheels, and lightweight design make it easy to flip them up or roll them away. These fun, innovative products turn any space into an exciting setting in no time.

Safety in Schools

We are fully committed to offering the safest and healthiest products available in the education industry.

Greenguard

Cafeterias, gymnasiums, classrooms, and libraries are only a few areas of the educational environment in which products containing harmful volatile organic compound (VOC) emissions can be found. Some health effects of VOCs include eye, nose, and throat irritation; headaches, loss of coordination, nausea; damage to liver, kidney, and central nervous system; some are suspected or known to cause cancer in humans. Selecting low-emitting GREENGUARD Certified products is an effective way to limit the sources of indoor air pollution.

Bifma International

Products have passed performance tests for strength, stability, and durability as established by the American National Standards Institute and the Business and Institutional Furniture Manufacturer's Association (ANSI/BIFMA).

Proudly Made In North America

- Guaranteed best industry product standards of health and safety
- Highest quality
- Supporting local economy
